

# Dog Breed Code

Solve each problem and place its letter above its answer in the code below.

U    5 8 7  
       x 2

H    6 3 5  
       x 5

C    7 2 4  
       x 3

S    2 7 3  
       x 6

D    5 9 2  
       x 4

A    4 1 9  
       x 5

H    3 5 9  
       x 3

N    9 4 6  
       x 6

D    8 5 6  
       x 4

Which breed of dog is only 8 or 9 inches tall but can weigh up to 30 pounds?

This dog breed also comes in 4 varieties: short-haired; long-haired; wire-haired; and miniature, which is only about 5 inches tall!
