

## Addin' Three

Each type of puppy stands for a different number.  
Add the three numbers for each puppy problem.

 = 1	 = 3	 = 5
 = 2	 = 4	 = 6

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$

$$\square + \square + \square = \square$$
